

TENSOR Alpha

„New Active-Speaker-Reference“

TENSOR Alpha

„New Active-Speaker-Reference“

“The Tensor played music like the proverbial solid rock, reproducing the music stable, powerful, and without any staining. **We hardly ever came across such a benchmark concerning neutrality.**”

“Free of any kind of influence on the music the TENSOR **lets the music itself become a true experience.** The infatuating bass and the silk-like subtle benignity of the upper mids and highs are just ingredients of an overall result that is convincing, even **staggering.**”

“To put it short: We will remember the TENSOR Alpha as **one of the highest class and ‘highest fidelity’ loudspeakers** we ever were allowed to welcome in our listening rooms. Thus, the name is everything but a load of warm air: **ADAM’s ‘Alpha Animal’ strikes the perfect note in every respect!**”

“**Sound-Level: 100%**”

Excerpts from the German trade magazine *Stereo* 05/2008.
